Day 2 – Mon 29 Apr: LIMA

Breakfast, Lunch

Our city tour starts downtown, where we will visit the Aliaga House, an ancient vice-regal house delivered by Francisco Pizarro to one of his captains (Jerónimo de Aliaga) after the foundation of the city. The construction of this house started in 1535. This genuine jewel of colonial architecture is currently inhabited by his descendants. On to the Main Square, where Lima was first founded as "The City of Kings" in 1535, and it was already known by the name of Lima when Peru proclaimed its independence from the Spanish Crown in 1821. Here we will see the Presidential Palace, the Archbishop’s Palace and the Lima Cathedral. Next, visit Saint Francis’ Church with its enviable collection of old books and an authentic network of catacombs open to the public. In the Pueblo Libre district we will visit the Larco Museum, founded by Rafael Larco Hoyle in 1926. This visit will afford us an understanding of the high degree of development achieved over five thousand years by the cultures that flourished before the Inca Empire. The museum, located inside a vice-regal mansion built on a pre-Columbian pyramid of the 7th century, shows the most complete pre-Hispanic collection of gold and silver artifacts as well as pieces of erotic art.

Lunch at Cafe del Museo Larco

On returning to our hotel, the rest of the day is at leisure. Free for dinner this evening.

Day 3 – Tue 30 Apr: LIMA – SACRED VALLEY

Day 4 – Wed 01 May: SACRED VALLEY – FULL DAY TOUR

Breakfast, Lunch

We will start our tour today at the Pisac market, which has plentiful stands exhibiting and selling products manufactured by the residents of the area: beautiful alpaca textiles, musical instruments, paintings, carvings, necklaces and replicas of old Inca pieces. Continue to the Pisac archaeological ruins, the largest complex of terraces in the area and a masterpiece of the agriculture of the Inca Empire.

After lunch at a local restaurant, we will visit the Ollantaytambo Park, stopping at various points of interest. Ollantaytambo town is a typical example of the urban planning of the Incas, where residents still live in accordance with their old traditions.

Pachacútec (1438-1471) conquered the town, destroyed it and built a new one, absorbing it as part of his empire. It exhibits one of the most remarkable complexes of the Inca Empire.

Return to our hotel in the Sacred Valley for overnight.
Pack an overnight bag for tomorrow. Due to luggage restrictions aboard the trains to/from Machu Picchu, passengers may only take 1 small bag (a backpack is best) weighing no more than 5kg (11 lbs). Our main luggage will be sent on ahead to our Cusco hotel.

**Day 5 – Thu 02 May: SACRED VALLEY – AGUAS CALIENTES, MACHU PICCHU**

*Breakfast, Lunch*

Today we have a real treat in store once we have been transferred to the Ollantaytambo train station, where our guide will assist us with boarding the Vistadome train with its huge skylights to enhance the views.

08h00-09h25 Our excursion to Machu Picchu begins with a 1½ hour train journey through beautiful countryside to Aguas Calientes, a delightful small town at the base of Machu Picchu, the most important archaeological site in Peru. As there is no road traffic in Aguas Calientes, it is very pleasant to browse the many craft markets for beautiful textiles and other products and crafts of every kind. Restaurants and coffee shops are plentiful and the main square is a wonderful spot to sit and people watch.

On reaching Aguas Calientes we will board the 4x4 bus for a winding journey up to Machu Picchu, a masterpiece of engineering and architecture that served as a sanctuary and retreat for the Inca ruler Pachacuti. Machu Picchu, meaning "Old Mountain", is a UNESCO World Heritage Site and one of the New 7 Wonders of the World. Once in the citadel, our guide will introduce us to this incredible site. There is quite a lot of climbing, mainly steps, which is why we recommend bringing a small backpack today!

Return by bus to Aguas Calientes for mid afternoon lunch at Café Inkaterra.

Check into [CASA DEL SOL MACHU PICCHU BOUTIQUE HOTEL](https://casadelsolhotels.com/en) or similar for 1 night.

Rest of the day and evening are at leisure to enjoy this delightful town and find dinner at one of the many restaurants. Everything is within walking distance and quite safe.
Day 6 – Fri 03 May: MACHU PICCHU - CUSCO

Breakfast

Today you can either spend the time exploring Aguas Calientes further on your own, or make use of a 2nd entrance to Machu Picchu in the morning and enjoy more time at the Citadel: maybe visit the Intipunku (Sun Gate) and the Inca Bridge which is part of the Inca Trail and is made of vegetable fiber or straw. The bridge is woven with ancient techniques and each year several communities come together to renew and maintain this wonderful tradition.

On returning to Aguas Calientes, the rest of the day is at leisure until late afternoon, when we head to the Aguas Calientes station to take the Visadome train back to Ollantaytambo station (18h10-19H51) and on by road transfer to Cusco. Check into SONESTA HOTEL CUSCO or similar, where we spend 2 nights. https://www.sonesta.com/pe/cusco/sonesta-hotel-cusco

Day 7 – Sat 04 May: CUSCO – HALF DAY TOUR

Breakfast, Lunch

We start our tour today by visiting Coricancha, also known as the "Temple of the Sun", which was built by the Inca ruler Pachacuti. During the Inca Empire, the sun was worshipped here and there was a time when the structure was covered in gold. But on the arrival of the Spaniards, it became the base for the construction of the Santo Domingo Convent. Next, we visit the Cathedral, the most imposing monument in Plaza de Armas square. The construction of the cathedral took almost 100 years to complete, beginning in the mid 16th century. Hundreds of stones were extracted and transported from the Sacsayhuaman fortress under the command of the Ecclesiastical Council to use for the construction of the church. We continue on to the fortress of Sacsayhuaman, a magnificent building conceived and built by Inca ruler Pachacuti in the 15th century.
The Sacsayhuaman complex was built with megalithic blocks, the transportation and erection of which continue to be a fascinating mystery. The Inti Raymi Sun Festival is re-enacted here every year on 24 June during the winter solstice. We drive 4km to Quenqo, an archaeological complex of mainly religious use where it is believed agricultural rituals were performed. Finally, we visit Puka Pukara, the "Red Fortress" which was an architectural complex of alleged military use. Its multiple spaces, plazas, baths, aqueducts, walls and towers are believed to have been used by the entourage of the Inca ruler while he rested in Tambomachay.

Lunch at Inka Grill Restaurant

Return to the hotel with the remainder of the day and evening at leisure.

Day 8 – Sun 05 May: CUSCO - PUNO on LAKE TITICACA

The bus has a heating system, guides in English and Spanish, TV / Video, interactive video of the route, GPS, free Wi-Fi and hot drinks on request.

At lunch time we will stop at La Pascana Restaurant for a break and to enjoy a delicious buffet.

On arrival at the bus station in Puno, we will be met by our guide and transferred to our hotel, where we will spend 2 nights. HOTEL SONESTA POSADAS DEL INCA – LAKE TITICACA – PUNO or similar.

Day 9 – Mon 06 May: PUNO

Breakfast

After breakfast, we will transfer to Puno's lake port, where a vessel will take us to the floating islands of the Uros, an ancestral society inhabiting a series of artificial islands built with the totora reeds growing in the lake. The islands are built by weaving the reeds in the places where they grow the thickest and form a natural layer. After a one and a half-hour tour, we will continue our trip to Taquile Island. Unlike other islands, inhabited by Aymara-speaking people in the lake, its residents speak Quechua. It was part of the Inca Empire and it is possible to note vestiges of this culture in their buildings. When we arrive, we will receive a brief explanation on the island and will attend a cultural activity.
